

TOYO TIRES

ALL NEW

• **EV READY**

PROXES Comfort

LUXURY COMFORT

Enhanced Speed Stability

Superior Wet/Dry Handling

PROXES Comfort, available for car and SUV, was developed to provide **premium levels of stability and comfort** for relaxed and enjoyable everyday driving.

The new tread compound and internal structure of PROXES Comfort give the tyre enhanced stability at speed along with **confident handling and excellent braking**.

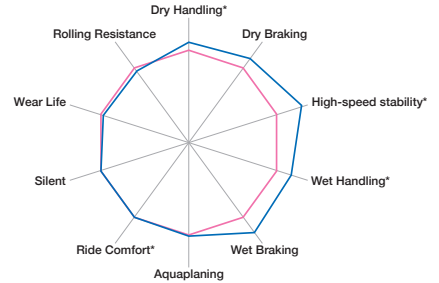

Dynamic performance improvements, combine with quiet, comfortable driving to make PROXES Comfort one of the most capable all-round tyres available.

PERFORMANCE CHART

*Note : Evaluations are subjective

Tire Size : 205/55R16 94V
 Test Vehicle : Golf 8 (Wet/Dry braking),
 Golf 7 (Other than the above)
 Test Site : QAMTC Wuchang (Wet handling)
 ATP Papenburg (Dry handling, Dry/Wet braking)
 Miyazaki Tire Proving Ground (Other than the above)

PROXES Comfort
ECE Grade RRC: E~ C WET: A

PROXES CF2
ECE Grade RRC: E~ C WET: B

TREAD PATTERN (ASYMMETRIC DESIGN)

DYNAMIC TAPER DESIGN

LATERAL GROOVES

Improved braking performance by suppressing the groove edge pressure during braking.

CROSS SECTION OF LATERAL GROOVES

Normal Groove

Localized deformation at block edge, causes uneven contact pressure distribution, decreasing block stiffness.

Dynamic Taper Groove

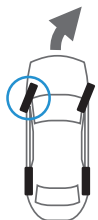

The Dynamic Taper Design grips the road surface more securely, resulting in even contact pressure distribution and increased block stiffness.

GROUND CONTACT PRESSURE

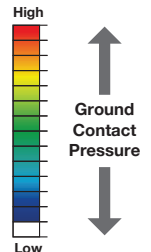

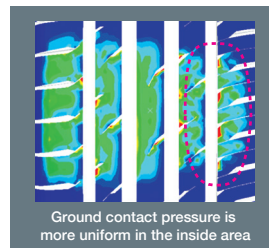

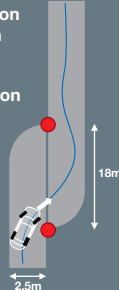

CAR TRAIL OF LANE CHANGE EVALUATION

Car Direction

Evaluation condition
 • Speed: 100km/h

● : Pylon
 ○ : Simulation point

By optimizing the profile design, the strain of the bead and belt edge are reduced, ensuring the optimum ground contact pressure and ground shape during cornering, thereby improving stability.

***PROXES* Comfort**

TYRE SIZES

RIM DIA.	TYRE SIZE	
16"	185/55 R16 87V XL	○
