

FACT SHEET: Future Mobility Thailand 2025 : FMT 2025

"Driving Tomorrow: Innovating for a Sustainable and Connected Future"

1. Event Overview

Event Name: Future Mobility Thailand 2025 (FMT 2025)

Theme: "Driving Tomorrow: Innovating for a Sustainable and Connected Future"

Date: April 3-5, 2025

Venue: Bangkok International Trade & Exhibition Centre (BITEC), Bangna, Bangkok

Organizer: Thai Auto Parts Manufacturers Association (TAPMA)

Supporting Organizations:

- Thailand Board of Investment (BOI)
- Thai Subcontracting Promotion Association
- Worachak Association Automotive Synergy
- Thailand Printed Circuit Association

2. Key Highlights

 **Opening Ceremony by the Minister of Industry**

Keynote Speech: "The Power of Parts: The Future of Thailand's Auto Parts Industry" Government strategies to support the transition to EV and Smart Mobility

✓ **The Power of Parts Exhibition**

Over 100 exhibitors from Thailand and beyond showcasing innovations in EV parts, ADAS, advanced materials, and cross-industry applications

✓ **Business Matching & Joint Venture Negotiation**

- Facilitating partnerships between Thai parts manufacturers and global investors direct access to supply chains of major automakers and Tier 1-2 technology providers.

April 3rd: Business matching between automotive manufacturers and parts manufacturers.

April 4th: "Joint Venture" matching event for companies seeking investment in Thailand.

April 5th: Parts transform business matching for parts manufacturers looking to expand into other Industries.

✓ **Future Mobility Conference**

Industry insights on global trends in auto parts, EVs, ADAS, and international market expansion for Thai manufacturers

✓ **Live Demonstrations of Future Auto Parts**

Next-generation battery technology, lightweight materials, and Smart Mobility components

3. Why Thailand is the Future Hub for Auto Parts Manufacturing?

◆ **ASEAN's Leading Auto Parts Manufacturer**

- Over 1,800 auto parts manufacturers covering Tier 1, Tier 2, and Tier 3 suppliers
- Fully integrated supply chain, from raw materials to high-tech components

◆ **Readiness for EV & Smart Mobility**

- Thailand emerging as a global EV parts manufacturing hub
- Thai manufacturers investing in electric powertrain components, batteries, and smart sensors

◆ **BOI Investment Incentives**

- Tax benefits for EV parts, ADAS, and advanced technology investments
- Government funding and R&D support for Thai auto parts innovation

◆ **Expanding Global Market & Partnerships**

- Thailand serves as a key production base for global automakers
- Strengthening collaborations between Thai manufacturers and global supply chains

4. Featured Zones: The Power of Parts

◆ **EV Parts & E-Mobility Innovation** – Batteries, electric motors, and smart drivetrain systems

◆ **ADAS & Smart Mobility Components** – AI-driven sensors, LiDAR, Radar, and driver assistance systems

◆ **Green & Lightweight Materials** – Eco-friendly composites, carbon fiber, and aluminum alloys

◆ **Performance Parts & Aftermarket Solutions** – High-performance accessories, suspension systems, and smart maintenance solutions

◆ **Parts Transform: Beyond Automotive** – Automotive parts applications in medical, aerospace, rail, and agriculture industries

5. Opportunities for Thai Auto Parts Manufacturers

✓ **Access to Global Supply Chains**

- Business matching with automakers, Tier 1-2 suppliers, and investors
- Market expansion into EV and smart component sectors

✓ **Government & BOI Support**

- Tax incentives for EV and ADAS component investments
- Financial support for R&D in advanced auto parts technology

✓ **Global Partnerships & Joint Ventures**

- Opportunities for joint ventures with leading industry partners
- Innovation-driven collaborations for next-generation parts manufacturing

✓ **Stay Updated on Industry Trends & Technologies**

Exclusive seminars and workshops on EV parts manufacturing, smart technology, and value-added components

6. Who Should Attend?

- Auto parts and EV component manufacturers
- Investors and supply chain stakeholders in the automotive industry
- Companies developing ADAS, AI, IoT, and automotive software solutions
- OEMs and Tier 1-2 manufacturers
- Government agencies and industry support organizations
- Logistics and supply chain service providers

7. Registration & Contact Information

📍 **Venue:** BITEC, Bangna, Bangkok

📅 **Date:** April 3-5, 2025

📞 **Contact:** Thai Auto Parts Manufacturers Association (TAPMA)

📣 **Join Future Mobility Thailand 2025 – The Power of Parts!**

The premier event showcasing Thailand's auto parts industry and its transition towards future mobility. Connect with global partners, explore new technologies, and seize investment opportunities!
